NEGRO ATTEMPTS BASE ASSAULT

When Sheriff Arrived His Services Were Not Needed.

Dothan, Ala., March 28.—Sheriff T. W. Butler, of Houston county, received a message to go to Hartford, Ala., with his dogs to aid in the capture of a negro who had attempted to assault the young daughter of Mr. John Mosely, a prosperous and highly respected farmer living 3 miles south of that place.

According to reports, the young lady had been on a visit to a neighbor's house and was returning home and when within a few hundred yards of her father's field, in which he was at work, she passed a negro man sitting on the roadside.

As she approached the brute she noticed him arise and start towards her. This, of course, frightened and alarmed the young lady and caused her to scream and at the same time run from him with all possible speed.

The man ran after her, but failed to detain her before her cries were heard by her father, who went in haste to her rescue. The negro when he saw Mr. Mosely took to the woods.

As the news spread through the neighborhood all the men in the community armed themselves and instituted a search for the would-be rapist.

When Sheriff Butler arrived with his dogs he was informed that his services were not then needed, as the negro had been surrounded and that all things were "quiet on the Potomac."

Boy Kills His Brother.

Coumbia, Miss., March 28.—At the order of his mother and with a shot gun fired by his 12-year-old brother, Hiram Patterson, was shot and killed here. The shooting was the result of a mistake in identity. Mrs. Patterson believing that her son was a burglar. Her delusion was caused by a prank of the young man in coming home late and demanding admittance while refusing to tell who he was. It is believed that he had been drinking. Mrs. Patterson was at home alone with her 12-year-old boy and his sisters. When she could not learn the identity of the man at the door she told the boy to get the shotgun and shoot. The tragedy was not generally known until Tuesday.

Assault Made on Little Girl.

McDonough, Ga., March 28.—A 15-year-old negro boy named Buck Hugh criminally assaulted the 4-year-old daughter of John Daniels, who resides about 10 miles from this place. The screams of the child attracted the attention of the mother, and she went to the child's rescue. The mother then rang the farm bell, which called Mr. Daniels, who was working about a half mile away. Mr. Danieds gave chase and captured the negro. He then brought him to McDonough, and turned him over to the sheriff. The desire of the father to let the law take its course and the youth of the assailant have prevented any very great excitement.

Keystone Express Derailed.

Pittsburg, March 27.—Train No. 20 on the Pennsylvania railroad known as the Keystone Express, east bound, was derailed near Wilmerding, Pa., 4 miles east of here, early Wednesday morning. The engine, two mail cars and a combination baggage and smoker left the tracks, but no one was hurt.

Will Begin on New Buildings.

Montgomery, Ala., March 28.—It has been agreed to have a meeting at Montevallo of the building committee of the Girls' Industrial April 1 to arrange to begin on the new building.

DYNAMITE EXPLOSION KILLS TWO NEGROES

Dynamite Explodes With Awful Results.

SIX MEN ARE BADLY INJURED

Explosion Blows Big Hole in Southern Railway Freight House in Atlanta, Shaking Surrounding Buildings and Demolishing Cars.

Atlanta, March 28.—IKilling two instantly, injuring at least seven others demolishing one freight car and damaging several others, tearing a great hole in a substantial brick wall and snatching the glass windows from the buildings in the vicinity, nine hundred pounds of dynamite exploded at the Southern railway freight depot, at the corner of Peters street, Wednesday morning at 8:30 o'clock.

Those dead are Will Jenkins, negro; Ed White, negro.

Those who were injured are Walter S. Pullen, white; Will Smith, negro; Walter Grady, Smyrna, Ga.; Eugene Wilson, negro; Alfred Smith, negro; Pink Moore, negro; Monroe Johnson, negro; David Sharp, negro.

The negroes were all employed as stevedores, employed at the depot in loading and unloading freight cars.

Messrs. Pullen and Grady were the clerks at the station, the former superintending a gang of negroes.

Pullen was seriously, though not fataly hurt. He received several ugly gashes on the head. Grady was injured on the left shoulder, being hit by a piece of falling timber, jarred from its fastenings by the explosion.

The wrecked car was New York Central and St. Louis, No. 9420, loaded with miscellaneous freight, billed from eastern points to Atlanta. It arrived Wednesday morning and was placed on the siding closest the depot for unloading at 7 o'clock.

Among ather things, the car contained eight cases of "percussion caps," according to the bills of lading, shipped from Wilmington, Del., by the Dupont Powder company, to the Atlanta branch of this firm. The eight cases weighed in the neighborhood of 900 pounds.

Certain it is that the explosion was one of tremendous force. It was heard for a mile or more and the shock was visibly noticeable for several blocks in the immediate vicinity.

One of the unfortunate negroes, Will Jenkins, was thrown to a height of 75 feet in the air, falling on the main line of the Central railroad, 20 yards from the scene of the explosion. He was literally splintered by the force, being nearly decapitated. The body presented a sickening picture as it was viewed by the hundreds of morbidly curious who gathered about.

Where the heavily loaded car once stood, there was, after the explosion, only a mass of torn and splintered bits of wood, and the two pairs of trucks. Scattered about in all directions were fragments of the goods that had been shipped in the car.

The cars between which the ill-fated "9420" stood were wrecked at either end, while the car standing on the next track was practically demolished.

So great was the force of the explosion that parts of the heavy brick wall of the depot were torn away, and the heavy timbers were broken and bent. The clerks' desks in a part of the building distant from the car were turned topsy-turvy, and the men themselves were stunned for the minute by the jar.

As in all explosions, a vacuum was created for the second, which accounts for the facts that windows in nearby buildings were literally sucked from their frames, while heavy boxes and paper files were drawn several inches towards the scene of the disaster.

Accounts as to the cause of the explosion vary, but it is generally believed that the supposed boxes contained dynamite in a dangerous form and not "percussion caps," as the bill of lading shows. The succession of jars caused by the negroes in their effort to break the seals and force an entrance into the car evidently caused the substance, whether dynamite or caps, to explode.

Coroner Thompson has been notified and expects to hold an inquest over the bodies of the dead negroes.

The fire alarm was sounded immediately following the explosion, but, fortunately, there was no fire, otherwise the disaster would have been more horrible.

WILL INSPECT SALOON LIQUOR.

Council Committee Favors Letting the Boardof Health Do Inspecting.

Atlanta, March 28.—An ordinance will be presented to council next Monday afternoon providing for an inspection of the whisky sold in the city in the saloons, but it will not provide for an inspector as requested in a resolution introduced in council by Alderman Key.

At a meeting of the ordinance committee, Alderman Key's resolution, calling for a whisky inspector, was read. It was the opinion of the committee that such an inspector would not exactly be the proper thing, and on motion of Councilman Martin and Alderman Peters, it was agreed to get Chairman Terrell, Councilman Pomeroy and the city attorney to frame an ordinance giving the board of health the power to secure samples of whiskey from saloons from time to time, such samples to be analyzed by the city bacteriologist. There will be a provison if any adulterated whisky is sold the saloon man shall be fined and his license revoked.

Two Killed in Wreck.

St. Paul, Minn., March 28.—The Northern Pacific passenger train for Duluth, which left St. Paul at 11 p. m., Tuesday was wrecked at Carlton, Minn., early Wednesday morning. The engine, mail and combination cars were derailed and the engineer and fireman, whose names have not yet been learned, were killed. Meager reports received at Northern Pacific headquarters here do not indicate that any passengers were killed. The derailment knocked down the telegraph poles of the North American Telegraph company and communication with Duluth over that line is interrupted.

Have Reached Satisfactory Agreement

London, March 28.—The Standard Oil company and European petroleum union have, according to the Pall Mall Gazette, reached a mutual satisfactory agreement which will end the struggle hitherto waged for the European markets. Under the arrangement which will become effective April 1, the Standard Oil company secures control of many additional important oil tank installations in such centers of distribution as Antwerp, Amsterdam and Rotterdam.

Mrs. Tower Ill.

New York, March 28.—Mrs. Charlemange Tower, wife of the American ambassador, in Berlin, who arrived here from Europe last Wednesday, is ill at the hotel Manhattan. It is understood that an operation has become necessary and that a cablegram has been sent to Berlin summoning Ambassador Tower to his wife's side.

Russian Editor Assassinated.

Moscow, Russia, March 28.—Dr. Jollos, editor of the Russki Viedomosti, was assassinated here on Wednesday by an unknown youth, who shot him with a revolver as he was leaving his residence. The murderer escaped. Dr. Jollos was a member of the lower house of the first Russian parliament.

Cold Wave Strikes Nebraska.

Norfolk, Neb., March 28.—A cold wave causing a drop of 23 degrees, struck Norfolk and the northwest last night. The range for the Wednesday day 55 degrees and the range of the week 65 degrees, Tuesday of last week having surpassed all March records with 91.

Will Guarantee Big Loan.

Rio De Janeiro, March 28.—It is stated that the government will deposit coffee at Antwerp and Havre to guarantee the $25,000,000 loan which is to be negotiated for by the bank of San Pablo.

NEGROES DIE IN CONFLICT WITH LAW

Bloody Race Riot Fought In Muskogee, I. T.

MANY KILLED AND WOUNDED

Black Secret Organization Defies U. S. Officials—Order Is Maintained, But All White Men In City Are Now Under Arms.

Muskogee, Ind., T., March 28.—As a result of a fight between members of an organization of negroes known as the United Socialists on one side and city and government officers on the other, late Tuesday afternoon, Noohn Schofield, a white police officer, was shot through the body just above the heart and will die; Guy Fisher, white, a clerk in a wholesale grocery establishment, was shot through the shoulder; Sam and Elbert Barker and a man named Scott, all negroes, are dead; two other negroes whose names cannot be learned were badly wounded, and are in hiding with friends, and six negroes are in jail.

The United Socialists are established in many country towns and one of their claims is that the United States has no jurisdiction over its members. The leader of the organization, William Wright, a negro preacher, is among those arrested.

The fight took place at a house occupied by the members of the organization. Officer Schofield went to the house to serve a warrant on Elbert Barker, and was shot down.

In response to a riot call United States Deputy Marshals Ledbetter, Hubbard, Williams and Smith responded. When they reached the scene they were met by the Barkers, and in reply to the demands that they surrender, one of the negroes raised his winchester rifle to fire on the officers. The four officers opened fire almost simultaneously, both of the negroes being wounded.

Falling against the side of the house the negroes, although mortally wounded, returned the fire, but without effect. Then followed a fusillade in which about 50 shots were fired, resulting in the wounding of Fisher and a bystander and the two other negroes and the killing of Scott.

Tuesday night nearly every white man in the city armed in anticipation of any further rioting that might occur.

Because of the fact that this particular gang of negroes is disliked by the others of their race, further rioting is not looked for. They lived apart from other negroes, and were known as "money finders," because it was their custom to travel about at night and hunt for buried money.

Attempt to Seize Norway Steamer.

Mobile, Ala., March 28.—A report was brought to Mobile from Truxillo, Spanish Honduras, by way of Puerto Cortez, that an attempt had been made by the Honduran army to seize the Norwegian steamer Suldal and an American schooner at the first named place for the purpose of using them as troop ships, but the presence of American warships prevented it. The Norwegian steamer Panan Monsen arrived in port Tuesday night at 9 o'clock from Puerto Cortez, four days out.

Will Take Charge of New Post.

New York, March 28.—Horace G. Knowles, who has been appointed U. S. States Minister to Roumania, Servia and Bulgaria, arrived in New York Tuesday. He will sail on La Provence Thursday to take charge of his new post as soon as possible, owing to the troubles there.

Sudden Death for Chaffee.

New York, March 28.—While engaged in a business consultation at the office of J. H. Lane & Co., commission merchants, John W. Chaffee, a cotton operator of Augusta, Ga., was stricken with apoplexy and died at the Hudson street hospital. Chaffee was here on a business trip.

I ...any city which enjoys ...l charter, for ours pro... ...al self government." ...many misleading state... ...garding the charter ...that "the Mayor can ...ets paved and sidewalks ...granolithic composition." ...a statement, yet it has ...ften that many accept it ...Board of Public Works ...Council the advisability ...ordinance providing for ...ent of a certain street ...or streets. If the Council agree an ordinance is drawn and published once each week for four consecutive weeks in a newspaper published in this city—this for the information of the public. The ordinance, among other things, provides for the paving of the street or streets specified, or for the laying of sidewalks out of *either vitrified brick or granolithic composition* of uniform width, to be put down in accordance with a grade to be furnished by the city, also that on a certain day and hour any person owning property on the street or streets contemplated to be improved may appear before the Council and show cause why such improvements should not be made. The cost of these improvements is divided as follows:

Cost of street and gutters is paid for by the City, and *two-thirds* by property owners; sidewalks are paid for by property owners. Contracts for paving or sidewalks are let by the Board of Public Works to the lowest successful bidder, who furnishes bond for the faithful performance of the contract.

I am informed by City Clerk Bell that up to date only two persons have made it known to the Council that they were opposed to the ordinances providing for these improvements, and this should certainly be sufficient evidence of the fact that the persons owning the property affected, were in sympathy with the spirit of progress. Yet, fellow-citizens, it would seem that, with a few exceptions, those who are having so much to say in regard to this matter, those who are criticising the wisdom of these improvements and *other matters* pertaining to the future welfare of our city, are not even property owners or tax-payers—they are men who can pack up their belongings and bid you "good-bye" in a night. With few exceptions this is the class of men who are endeavoring to poison the minds of the public with their misrepresentations of facts, which tend to bring about a feeling of unrest and distrust, which if not checked will wreck the best interests of this community.

Fellow-citizens, do not permit yourselves to be misled by this disgruntled and designing class of men—their interests are not yours and yours are not really theirs. Those who have lived here all of our lives should know each other better, at least too well to permit these men to separate our interests and shatter our faith in humanity, for it cannot be easily restored, and neither can the shattered faith in the continued prosperity of the city be easily restored. I believe no city has a brighter future than Gainesville, but before we can expect to prosper and build up our interests, we must put aside personal animosities and petty jealousies and all get together and push the city forward. If we would make the greatest success, we should at least have faith in the officers elected to serve our combined interests. No member of the Council or Board of Public Works receives a penny for his services, though it may entail a great loss of time and worry to them to give attention to our affairs. These positions should be filled by men of known business ability, by men who have made a success of their own affairs. They may make a mistake in their judgment at times, but everyone makes mistakes.

To you who are really interested in the future prosperity of Gainesville, until it will have attracted thousands who may desire to reside in a moral and progressive community, where they may live in peace and educate their children, I would urge that you consider well what the future has in store for you before casting your ballots.

In conclusion, let me ask, who disputes the fact that W. R. Thomas has done more for the moral and financial interests of Gainesville than any other mayor? What would be gained if a change was made at this particular time?

Has not Charles Pinkoson proven, beyond every reasonable doubt, that he will enforce all Police Ordinances of the city, without fear or favor? Then what would be gained by making a change at this time?

I favor voting for members of the Council and Board of Public Works who are pledged to a safe, economical and business-like administration of the affairs of the city. I favor voting for men who are pledged to a continuation of permanent public improvements as fast as the means of the city will ... I favor ... pledged to municipal ownership of an electric lighting plant to be operated in connection with our water plant, so that taxes may be reduced.

Fellow-citizens, consider well your own interests before you cast your ballots at the approaching city election.

Get rid of the Lard Habit

Cottolene makes pies and pastry digestible—it makes crisp, flaky pie-crust—the kind that will melt in your mouth rather than stick in the pit of your stomach.

There is no getting away from the fact that lard is the fat of the pig. There was a time in the olden days when lard was made from a particular part of the pig, the selected part—it was called the "leaf"—that is, the peritoneum; but, with the growth of the industry lard is now thrown on the market made from pig-fat from all portions of the animal, and lard, today, is not as good as the lard of years ago—in fact it is more indigestible, and more unhealthy.

Cottolene is a cleanly vegetable product made from pure, refined cotton seed oil. It makes food palatable, digestible and healthful.

Cottolene is the purest and best shortening. It is not a substitute for lard, but an improvement upon lard or any other shortening. When you accept a substitute for *Cottolene* you are not getting your money's worth. *Cottolene* is the original and only shortening on the market. It is preferable in more ways than one—in purity, results and healthfulness.

Try *Cottolene* for a short time, and you will find that your digestion is noticeably improved. Follow directions given on the pail.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

DR. ROGERS' CONDITION.

Is at Piedmont Sanitarium, Atlanta, and Condition Unimproved.

Friends of Rev. S B. Rogers, pastor of the First Baptist Church of this city, who was taken to the Piedmont Sanitarium, Atlanta, Ga., several days ago, will regret to learn that his condition is considered yet quite serious, which means that it has been unchanged since leaving the Odd Fellows' Sanitarium here, where an operation was performed upon him sometime ago.

A letter received from Dr. Rogers by his wife a couple of days ago is anything but encouraging. The letter stated that a consultation between Dr. McRae, manager of the Sanitarium, and three others, has developed nothing new.

Friends of Dr. Rogers in this city and throughout the State are in great sympathy with him, and trust that he will soon sufficiently recover to return to his home and family. He has the prayers of the Christian community, regardless of denomination.

Picnic is Postponed.

The contemplated picnic for the Ninth Grade of the Gainesville Graded and High School has been called off for the present, owing to the illness of the chaperones. This illness is greatly regretted, and it is hoped that the picnic can be given in a few days.

IN THE JUDGE'S COURT.

C. Little Must Stand Consequences of Shooting Friend in Face.

There was an interesting little shooting scrape on Tuesday, according to reports of those interested, near Jonesville.

On Thursday a negro by the name of Chris. Little was arrested for assault, the warrant having been sworn out by Lincoln Williams, another negro, who alleges in his warrant that Little was the aggressor, and that he be shot at him with intent to kill. The two men, who reside in a southern direction near the city, it appears from what can be learned, became involved in a difficulty, when they barricaded themselves in their respective homes. Williams claims, so the information goes, that Little began firing, and after a short time a load of shot from Little's gun penetrated his face, wounding his eye.

The prisoner was brought before the county judge Thursday, waived examination, and gave a bond of $300 for his appearance today, which was promptly furnished.

Little is said to be a progressive kind of a man, engaged in the cattle industry. He will be on hand promptly at the trial, so his bondsmen say.

THE MUNICIPAL LEAGUE

Meeting Thursday Night Interesting and Largely Attended.

The meeting of the Municipal League, which was called for Thursday night by the chairman, Hon. E. J. Sanchez, was well attended, and those present seemed to manifest a great deal of interest in the proceedings.

While nothing of the proceedings in general are published, the proceedings are public, and any person was welcome to the meeting.

Several interesting addresses were made, and the League renewed its determination to stick to the original plan, and proposes to show the administration element "a thing or two" at the polls.

Query!!!

Editor Sun: Can a man that has served a term for violation of the law vote? I see by your issue of Thursday that the Hon. Augustus Walters (?) has an appointment to speak that evening. Is this the respectable (?) stand among the colored race that the administration so proudly boasts of supporting their ticket in the present campaign? If so I congratulate myself that I do not belong to it, for from of my own personal knowledge this Honorable (?) Gus has served time in the Alachua county hotel, for violation of the State and United States laws. If Mr. (?) Walters, Bill Thomas and such other negro grafters as the administration supporters may have deliver me from such a gang.

ETHIOPIAN.

Will Move to Tioga.

C. Ludwig, who, with his family, has been a resident of this city for the past two or three years, has decided to move to Tioga, where he will again engage in the phosphate industry. Mr. Ludwig was for a long time connected prominently with the American Wood Chemical Company, manufacturers of turpentine, creosote, etc., from pine stumps. The company's interest and plant having been sold to other parties, however, Mr. Ludwig has decided to resume the phosphate business, at which he has always been successful.

A Happy Marriage.

One of the happiest marriage ceremonies performed in Gainesville for some time was that of Jacob E. Malphurs of Campville and Miss Fannie Sheppard of this city, which occurred at the home of the bride on Wednesday evening, Judge Wm. F. Malphurs of Starke, uncle of the groom, officiating. The presents were numerous and handsome.

The wedding was a quiet one, only a few immediate relatives being present. Mr. and Mrs. Malphurs will reside at Campville, where Mr. Malphurs has a responsible position.

Country People Interested.

A number of energetic young men who constitute a portion of the field force of the College Park Company in their sale of the beautiful subdivision opposite the University went out to several of the smaller towns throughout the county yesterday afternoon to give the people of these towns an opportunity to secure College Park lots before the prices advance. The company heard from several of these salesmen last night by telephone and a number of lots had been sold at Newberry, Waldo and Micanopy. This shows that the people of the smaller towns are as quick to take advantage of investment opportunity when properly presented to them as are the people of the cities. One citizen of Micanopy purchased four lots.

Mechanic Drops Dead in Street.

Charlotte, N. C., March 27—J. C. Caton, a mechanic, dropped dead on the street here. Hundreds of the school children just pasing by at the time were greatly excited. Heart failure was the cause.

JONESVILLE JOTTINGS.

Death of a Good Lady—Other Items of Interest in That Burg.

Jonesville, March 27.—Rev. Taylor filled his regular appointment here last Saturday and Sunday.

Mr. and Mrs. Jno. Hart of Newberry attended church here Sunday, dining with Mr. and Mrs. J. I. Griffin.

The many friends of George Sharp are sympathizing with him in the loss of his wife, which occurred a few hours after his arrival home from visiting friends at this place. Mrs. Sharp resided at this place until a few years ago, when, with her husband and children, she moved to Fort Meade. She leaves a sister, Mrs. W. W. Spires of this place, to whom the sympathy of this community is extended.

Mrs. W. L. Pickett is visiting her parents, Mr. and Mrs. W. I. Collins, of Fort Meade for a few weeks.

Mrs. R. P. Miller visited relatives and friends in Newberry last Friday.

R. P. Miller made a business trip to Gainesville Friday.

Mr. Spear of Lake City was at the home of R. P. Miller, installing a gasoline engine, last Friday.

Messrs. Scott and Strickland of Alachua visited this place last Sunday, dining at the home of R. P. Miller.

H. C. Thompson, representing the Ludden & Bates piano house of Jacksonville, was in our midst last week and succeeded in selling R. P. Miller an upright piano, which will be delivered this week.

Mr. and Mrs. C. O. Greene of Tioga attended church Sunday, afterwards visiting the latter's parents, Mr. and Mrs. H. A. Pickett.

L. D. Gibbons of Crystal River was visiting friends here last week.

The many friends of J. I. Griffin will regret to learn that he is indisposed this week.

M. M. Holt happened to the misfortune to lose two of his mules last week. They were killed by one of Cummer's log trains.

KILLS CATARRHAL GERMS.

Breathe Hyomei's Medicated Air and You Will Soon be Well.

If you have catarrh in the nose, head or throat, with offensive breath, coughing, irritation of the throat, raising of mucous, difficulty in breathing, sneezing, husky or hoarse voice, discharge from the nose, tickling and dropping at the back of the throat, especially at night, begin the use of Hyomei at once.

Its healing medication breathed through the neat pocket inhaler that comes with every outfit, will give quick relief in all catarrhal troubles, and its continued use will kill the catarrhal germs, and drive them from the system.

By using Hyomei you get in your own home the same results as though you lived out of doors in the Adirondacks or the Colorado mountains. The germ-killing properties of Hyomei reach the most remote air cells of the respiratory organs, soothing and healing any irritation there may be in the mucous membrane, and killing all catarrhal germs.

Here in Gainesville where Hyomei has been known and sold, there are many who freely attest its wonderful powers, but the best testimony that can be offered in favor of Hyomei is the guarantee that J. W. McCollum & Co. give with every outfit they sell, "money back if it fails."

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50c, making it the most economical treatment for catarrh as well as the only one that is sold under a guarantee to refund the money if it fails to cure.

Charged with Murder.

Parksburg, W. Va., March 28.—Ed Shingleton, who is wanted on the charge of committing a murder in Hardin county, Texas, has been arrested here. In August, 1906, after his arrest in Texas, Shingleton broke jail and finally wandered back to this city, his former home. The arrest was made Tuesday while he was driving across the Little Kanawha river bridge in company with a young woman. A large reard has been offered by the Texas authorities for his capture.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

BACKACHE AND DESPONDENCY

MISS LENA NAGEL

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs has been for many years the most successful remedy in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 117 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired. Lydia E. Pinkham's Vegetable Compound completely cured me."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach. Cures Headache and Indigestion and invigorates the whole feminine system.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. Her advice is free.

FATHER THOUGHT CHILD WOULD DIE

Suffered with Cuban Itch, and Sores Covered Body from Head to Foot —Would Claw Himself and Cry All the Time — Could Not Be Dressed — Mother Advised to Try the Cuticura Remedies.

CURED BY CUTICURA AT EXPENSE OF 75c.

"My little boy in the Spring of 1901, when only an infant of three months, caught the Cuban Itch from one of my neighbor's babies. Sores broke out from his head to the bottom of his feet. He would itch and claw himself and cry all the time. He could not sleep day or night, I had to wheel him in his carriage most all the while to keep him still. He could not bear to have his clothing touch him, and only a light dress is all he could wear. I can't begin to speak in words the suffering the poor child had to endure. I called one of our best doctors to treat him, and he said he had the Cuban Itch, and his treatment did not do any good. He seemed to get worse. He suffered so terribly that my husband said he believed he would have to die. I had almost given up hope when a lady friend told me to try the Cuticura Remedies. She said she cured her little girl's ear, which was nearly eaten up with the eczema. I got a cake of Cuticura Soap and one box Cuticura Ointment, and I washed him all over with the Cuticura Soap and applied the Cuticura Ointment and he at once fell into a sleep, and he slept with ease for the first time since two months. When he awoke I applied it again, and it gave him much ease, and after three applications the sores began to dry up and improvement began to show, and in a few days the hide from the bottom of his feet and inside of his hands began to peel off. I only used one cake Cuticura Soap and one box Cuticura Ointment to complete the cure of the dreadful disease, and in just two weeks from the day I commenced to use the Cuticura Remedies my baby was entirely well. The treatment only cost me 75c., and I would have gladly paid $100 if I could not have got it any cheaper. I feel safe in saying that the Cuticura Remedies saved his life. He is now a boy of five years, and is as well as any child you ever saw. Mrs. Zara Miller, Union City, R. R. No. 1, Branch Co., Mich., May 17, 1906."

Gas Well Burning Fiercely.

Sapulpa, I. T., March 28.—A gas well, 2 miles east of here, that took fire Saturday, is still burning fiercely. After 14 days of work the well was capped. But the great volume of gas found another way through the crevices and for half a mile it spread upon the earth. At one place a hole three feet wide and twenty feet long was torn. Then the escaping gas caught fire and has been burning ever since. At one place a sheet of flame twenty feet long and fifteen feet high is blazing. Tons of rock and shale were thrown from the crevices and the constant tremble of the earth is frightening the farmers and oil operators in the vicinity of the well. Great pools of oil on the creek and in the ravines also are on fire, and there are no signs of abatement at yet.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Found Dying In His Office.

Pensacola, Fla., March 27.—A. F. Mallory, one of the most prominent citzens of the city, and brother of United States Senator Stephen E. Mallory, was found dead in his office late Monday afternoon. He had returned from home after the dinner hour, and had been in his office for an hour or more when one of the workmen found him on the floor dying. He lived only a short time and did not regain consciousness. The family is one of the most prominent in the south, the father of the deceased serving during the civil war as secretary of the confederate navy.

Infant Killed; Woman Injured.

Lisbon, March 27.—An automobile in which Maria Pia, the dowager queen, was riding Monday evening, ran over a woman carrying an infant. The child was killed and the woman seriously hurt. The dowager queen was much affected over the accident and wept when the the child was dead. She had the injured woman taken to the hospital in the automobile.

Gossip Concerning Expectancy.

Madrid, March 28.—Gossip concerning the expected accouchement of Queen Victoria is branching out in all directions. To those who are predicting the birth of a boy the wiseacres are putting forth as a precedent against it that for two centuries a girl has always been the first child born in the direct line of succession, while the first born of the oldest Infanta always has been a male.

Piano Factory Destroyed.

Chicago, March 28.—The three story factory building of M. Schultz company, manufacturers of pianos, located at Erie and Carpenter streets, was almost totally destroyed by fire Wednesday. An explosion of oils stored on the first floor of the building is thought to have started the fire. The loss to the building and contents is in the neighborhood of $100,000.

Threw Bomb at General.

Bialystok, Russia, March 27.—A bomb was thrown Tuesday at Governor General Bogalevski while he was out driving. The governor-general was not injured, though the force of the explosion broke all the windows in the street and his coachman was slightly wounded. The man who threw the bomb escaped.

Morton Salt Block Burned.

Hutchinson, Kans., March 27.—The Morton Salt block, the largest in the world, owned chiefly by Joe Morton and Paul Morton, former secretary of the navy, was destroyed by fire Monday. The loss embraced a new $250,000 addition to the plant and a vast quantity of refined salt, and may reach $1,000,000.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all drug stores. Price 50c.

Refuses to Disinter Captain Lewis.

Nashvile, Tenn., March 28.—The Tennessee legislature Wednesday adopted a reslution refusing the request of Oregon to allow the ashes of Captain Meriwether Lewis, famous explorer, to be taken to that state for interment. Captain Lewis is buried in Lewis county, this state, where the state of Tennessee has erected a monument to his memory.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., De...

SHORT TALKS BY L. T. COOPER.

CONSTIPATION.

I can tell a person who is constipated on sight. Their complexion is pasty or yellow. Their eyes are dull, and they look and feel sleepy. No wonder they do. The bowels are a sewer. They carry away the poisonous refuse. If they dont act the poisonous matter is absorbed by the body, and headaches, dullness, bad complexion and eventually serious troubles result.

SAMUEL BOOREN.

There is no better rule for good health than that the bowels should move every day at the same hour if possible. Regularity can be acquired by making a habit of this. Foolish people neglect this and when chronic constipation effects them they take pills every few days to force the bowels to perform their natural function. As years go on they require more and more pills. This should be stopped. Cooper's New Discovery will build up the stomach and cause the bowels to act naturally. While taking the medicine get the habit of regularity, then gradually stop taking the medicine.

Here is a sample of letters from those who have tried it:

"For sixteen years I have suffered from stomach and liver trouble, and chronic constipation. I had frequent headaches and always felt tired and worn out. I heard of Cooper's New Discovery and began its use. After I had finished one bottle I was wonderfully improved. Constipation gave way to a pleasing regularity of the bowels and I ate better, slept better and felt better than I had for months. It is the greatest medicine I have ever known." Samuel Booren. 1742 Munsey Ave., Scranton Pa.

Our customers who have used them say the Cooper medicines do the work. We sell them.

He Made a Mistake.

Into a Broadway car stepped a man and a woman, both young, well groomed and good looking. There were only two vacant seats, and they were on opposite sides of the car, so, instead of sitting side by side, they were divided. Presently the man at the girl's right hand gallantly arose and stumbled over to the unfortunate young man. "I will exchange seats with you, sir," he said.

The young man hesitated, blushed, but accepted the offer. Everybody was interested and expected to see the young couple strike up a conversation without delay. But they did not speak, and when the conductor came around the man dived down into his pocket for a nickel, and the woman dug around in her purse and brought up another, and they paid their fares independently. An audible sigh went up from the rest of the passengers. The man with the chivalric spirit felt worse than anybody else, unless it was the young people themselves, both of whom understood the situation and blushed furiously.

"Well, I don't care," growled the gallant man finally. "I did my duty anyhow, and he has had the pleasure of sitting beside her even if he doesn't know her."—New York Mail.

AN UP-TO-DATE CONSTITUTION.

The delegates to Oklahoma's constitutional convention, after wrestling for several weeks with the task of creating an organic law for the youngest State in the Union, says The Atlanta Constitution, have at last evolved a document which appeals to the curiosity and the admiration of the country with almost equal force.

The following summary affords a glimpse at the main provisions of the document:

The initiative and referendum; direct nomination of all officers by the people; prohibition of succession in State offices; prohibition of the sale or introduction of liquor into the State; two-cent railroad fare; partial woman suffrage; prohibition of ownership in any productive agency of a natural commodity by a railroad; prohibiting corporations from owning more land than is absolutely necessary in the operation of their business; prohibiting corporations from dealing in real estate outside of incorporated cities; prohibiting the issuance of watered stock, and requiring the books of all corporations to be open for inspection at all times; provision for the State ownership of the segregated mineral lands in Indian Territory; a compulsory and separate school system; commissions to deal with charities, labor and arbitration, insurance, railroads, agriculture, gas, coal, oil, and mines; defining the term negro; prohibiting the marriage of negroes with whites, and finally, providing that the constitution may be amended by a majority vote.

These articles are, of course, supplemented by the regular stereotyped provisos without which no State constitution is complete.

A casual glance at the list given demonstrates that the makers of Oklahoma's fundamental charter have been largely influenced by the agitation current in this country. Hardly an abuse of which the country is or has been complaining but is accorded direct recognition.

If the people, on August 6th, vote to accept the constitution in its entirety the country will be given a lesson in constructive dealing with corporate aggression and other evils now looming large in the public eye.

It may be that out of the experiment will grow valuable experience by which other States—even the Nation—can profit.

The solons, at the same time, must be given credit for conservatism. They appear to have realized, from reading the lessons of history, that the evils of today may not be the evils of tomorrow. So they have taken due precautions in providing that the constitution may be amended by a majority vote of the people.

The man who makes money in a community has a duty to perform to that community. It may be that he has made his money by his superior business ability, and that he would have done as well anywhere. That does not alter the case. If his gifts are great his responsibility is equally great. No man was placed on earth for the sole purpose of making money, and the man who has this as his sole ideal had better never been born. It is not an act of charity, but a simple duty for the man who has made money to pass a little of it on for the benefit of the community, even though he never expects to see a dollar of his contribution back.—Atmore Spectrum.

SERMONETTES

BY J. MARVIN NICHOLS.

The knocks and bruises give success her peculiar charms. We learn to love our difficulties since they prove stepping-stones to victory.

Its so strange that only in the face of flood and flame do men rise to the exalted meaning of a real brotherhood. What if in the marts of trade, or along the busy highways, we all felt the kinship of the human heart. God, what a world!

People milling around a show tent entrance remind me of a bunch of steers waiting to be loaded. And when the big fellow with the megaphone begins I think of the cow-punchers pushing cattle up the chute into the cars. For the life of me, it looks just alike.

Every age has its Napoleon of finance—its Rockefeller and its Harriman. Even in the dim past Noah was able to float a stock company when all the world was forced into involuntary liquidation. And it seems as if we were approaching the age of a deluge of gold.

This is a queer old world. A man may endure the hatred and scoff of a whole community. His erstwhile best friends (so-called, for he has never been a real friend who forsakes one in a dark hour) may deliberately set him adrift. But the man who sees the distant goal, and whose whole being throbs with resistless energy, is sure "to come again." And when he does, the whole push crawls up into the band-wagon once more. The world admires a man like that—there's something resistless about the fellow that "gets up." Success is the atonement price that purchases back every cowardly heart that dares to forsake in misfortune's hour.

BAD BREATH

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles." Chas. H. Halpern, 118 E. 7th St., New York, N. Y.

Early Northwest Voyages.

Beginning with the American discoveries of John Cabot in 1497, the search for the Northwest passage was for many years the object of rival expeditions from Denmark, England, France and Portugal. It was Frobisher, however, who in 1576-78 first gave a distinct national character to the quest. John Davis, of Davis strait, followed in three voyages, 1585-88, and then, in 1612, came the illustrious and hapless Henry Hudson, whose motto was that explorers should "achieve what they had undertaken or else give reasons wherefore it will not be." The search from the Atlantic side closed for two centuries with the voyage of a great seaman, William Baffin, who, in a tiny boat of fifty-five tons, with a miserable equipment, but an undaunted heart, attained in 1616 the highest north in the western hemisphere, 77 degrees 45 minutes N., and discovered three radiating sounds, Jones, Smith and Lancaster, the last being the eastern entrance to the long sought passage.—A. W. Greely in Century.

Colors to the Blind.

"Have you any conception of color?" a friend asked a blind man. "What idea have you when you hear colors mentioned?"

"A person blind from birth, as I have been, can have no possible proper conception of color," was the reply. "To me color is sound, or, rather, music. When I hear the word red, for example, I instantly think of a high piercing note of music. Blue is to me a delicately sounded note, fairly high and pleasing in tone. Green is a soft tone and rather low, quiet and restful, while yellow is lively, quick little notes rapidly sounding and causing pleasure almost to laughter. Black, alas, is the only color we can realize, for we are told that that is the absence of all light, and we know only too well what that means."

A Problem and a Solution.

Here's a little problem I'd like to have you help me out on: A induces me to loan him some money, which, in order to accommodate him, I had to borrow. I borrowed it from a good looking young widow. Not long after that A asked me to introduce him to the widow, and I did it to accommodate him. Now A has married the widow from whom I borrowed the money to loan him, and now his wife (formerly the widow) wants me to pay her the money which I borrowed and which I loaned to A (now her husband). A won't repay me the money, claiming he hasn't it and can't get it, and his wife won't release me. Will you please tell me what a poor fellow is going to do in a case like this? READER.

Charge her a commission, equal to the amount, for finding her a husband and then keep away from good looking young widows.—Denver Post.

A Fair Catch.

So strongly had the theory and practice of ambidexterity appealed to the burgesses and freemen of Pushville that they called a meeting to urge the necessity of bringing up children to use both left and right hands with equal facility.

"I defy any one in this audience to mention a single action that I can perform with my right hand which I cannot do equally well with my left hand," cried one of the speakers.

There was a ... and then a ... cried:

"The United States and New Jersey."

The suggestion that New Jersey is outside of the United States is not often touched upon nowadays, but for many years the references to it were as common as the recurrence of the mother-in-law joke. The origin of the idea came from a condition under which the Camden and Amboy railroad held its charter, which provided that out of the railroad receipts $1 should be paid into the state treasury for every through passenger. With that praiseworthy prudence that has raised railroad managers into such prominence among business men and financiers the directors ordered that a dollar should be added to the regular fare on every through ticket. As transportation began at Jersey City, across the North river from New York, and ended at Camden, across the Delaware from Philadelphia in Pennsylvania, it became equivalent to a tax on any citizen of any state who had occasion to travel across the territory of New Jersey.—From "Forty Years an Advertising Agent."

A Queer Marriage Ceremony.

A queer marriage ceremony was that in Queen Elizabeth's reign, before the deaf and dumb alphabet was invented, between Thomas Filshy and Ursula Bridget. Ursula could talk fast enough, but Thomas was a deaf mute, and as it was required that promises should be exchanged in spoken words nobody knew how to manage the thing. Finally the bishop of London helped to devise a service by signs, and Thomas proceeded thus: Having first taken Ursula in his arms, he took her by the hand and put the nuptial ring on her finger. He then laid his right hand significantly on his heart and afterward, putting their palms together, extended both his hands toward heaven. Having thus sued for divine blessing, he declared his purpose to live with Ursula till death should separate them by closing his eyelids with his fingers, digging the earth with his feet as though he wished to make a hole in the ground and then moving his arms and body as though he were telling a funeral bell.

The Trouble.

"There seems to be a great lack of unanimity in your family, Mr. Comeup."

"No, sir, that ain't the trouble, but we don't appear to be able to git together in anything."—Baltimore American.

Bigger the Steal, Smaller the Crime.

The Manx law of old times had many oddities, but none, surely, quainter than to make the greater the crime the less, because of the impossibility, within the narrow limits of the Isle of Man, that the bigger thief should be successful.

"If a man steal a horse or an ox," so ran the law, "it is no felony, for the offender cannot hide them; but if he steal a capon or a pig, he shall be hanged."

What "Yf" Spells.

A gentleman once received a letter in which were these words:

"Not finding Brown at home, I delivered your message to his yf."

The gentleman, finding it bad spelling, and therefore not being very intelligible, called his lady to help him read it. Between them they picked out the meaning of all but the "yf," which they could not understand. The lady proposed calling her chambermaid, because Betty, says she, has the best knack at reading bad spelling of any one I know.

Betty came, and was surprised that neither sir nor madam could tell what "yf" was.

"Why," says she, "yf spells wife. What else can it spell?"

And indeed it is a much better as well as shorter method of spelling wife than doubleyou, i, ef, e, which in reality spell doubleyifey.—From a Letter by Benjamin Franklin.

Vulgarity in manner defiles fine garments more than mud.—Plautus.

SAFE CRACKED; $900 SECURED.

Store Was Robbed at Keener, Ala. Robbers Escaped.

Gadsden, Ala., March 28.—The safe in the general merchandise store of J. M. Adams, at Keener, a town about ten miles from this city, on the Alabama Great Southern railroad, was blown open and $900 in money taken and $400 in checks were secured by the robbers.

The description given of the two supposed robbers fits exactly the two men who blew open and robbed a safe in the postoffice at Wellington last week.

Two heavy-set, red-faced, men were seen to leave the train at Keener about 3 o'clock Tuesday evening, who remained around the depot until dark and they are supposed to be the parties who blew open the safe.

Nothing was known of the robbery until this morning, when the proprietor went to open his store. His attention was called to some money lying on the floor which the robbers had left in their haste. No one seems to have heard the explosion, although there were several residents close by.

Bloodhounds were sent from this city in an effort to track the robbers, but it is thought they made good their escape by catching a train during the night.

Dr, Mauchamp Murdered.

London, March 27—The British foreign office, although officially advised of the murder of Dr. Mauchamp, of the French geodetic mission at Morocco City, has received no notification of the alleged attack on the residence of the British consular agent there, Mr. Lennox, who is said to have been compelled to fire on the mob, killing two persons.

Dies on Bridal Tour.

New York, March 28.—A dispatch received here from Tokio announces the death of James Henry Smith, one of the wealthiest men of this city. At the time of his death Mr. Smith was on a wedding tour around the world, and his bride was the divorced wife of William Rhinelander Stewart. They were married in this city on September 13th of last year.

Union Men Walked Out.

Nashville, Tenn., March 28.—Because of the differences over the employment of nonunioin labor in the shops of the Cincinnati Southern railroad at Oakdale and Somerset, Ky., the machinists have walked out. It is said that other shop men throughout the system will join the strikers.

Earthquake Reported.

London, March 28—An earthquake is reported by Professor Belar, of the Labache observatory, to have occurred shortly before 1 o'clock Monday afternoon at a distance of something over 6,000 miles from Labach.

Rheumatic Pains

Sore Hands or Feet

Gives Instant Relief

Minard's Liniment was prescribed by Dr. Levi Minard in his private practice fifty years ago. It is the most effective, economical, and clean-to-use external application for rheumatism, neuralgia, pleurisy, stiff, twisted joints, sore, strained, or lame muscles, tired, aching feet, any pain or ache, as well as for throat and lung troubles and as a general family medicine. So pure and antiseptic, so powerful, penetrating, and soothing. Minard's Liniment has justly earned its title, King of Pain.

CURED THIS MAN
Will Cure You

"Accept my heartfelt thanks on behalf of my aged father, who for the past six months was severely troubled with rheumatism in left arm, so much so that he could no longer work at his tailoring profession, and after consulting the leading specialists of this city, and trying enough so-called remedies to sink a boat, we finally made up our minds that he was a hopeless invalid. I can truthfully assert the fact that my father's paralyzed arm regained its full vigor and it is today as well as it ever was, after using Minard's Liniment.—

Delights of Literature.

A lady asked her gardener if he had read the book she had given him at Christmas. "I never reads," said the gardener in pure Kentish. She began to point out the beauties of literature. "It's like this," said the gardener, leaning on his spade: "You reads a bit, and then you thinks a bit, and then you gets a ter'ble 'eadache."—London Chronicle.

UMBRELLA AND SHOES.

Their Importance In the Eyes of the Indian Native.

India is so vast that different etiquettes prevail in different districts. We have no standard etiquette, no standard dress. We mostly copy European etiquette while with Europeans. Even a Bengalese shakes hands with a Bengalese, speaks in English for a few minutes and then breaks forth into the vernacular. We shake hands with a European on parting, but by mistake again touch the hand to the brow in a salaam, so we both shake hands, salaam and do the like, and no sober minded European ever cared for the anomaly.

The umbrella is the emblem of royalty, the sign of a rajah, so natives generally fold their umbrellas before a rajah and not before anybody else, however great. It is not a part of the dress, but a protection from the rain or sun, a necessary appendage, just like the watch and chain. You might as well ask a European to take off his waterproof coat. A cooly is not bound to fold his umbrella when a brigadier general rides past. But a menial generally closes down the umbrella on seeing his master, whom he considers his king. But no Indian, however humble, ought to fold up the umbrella, even before a magistrate, because he is neither the master of the humble passerby nor his superior officer, nor is he bound to salaam him. But if he does, no harm. In a word, natives generally fold the umbrella before a master or a superior officer and not any other citizen, however great, and this is no insult.

While going to see a native chief in his palace the native visitor or official takes off his shoes if the reception room has a farash and the rajah is sitting on his musnud. But if he is received in the drawing room, furnished after the European style, the shoes are allowed. In some states no natives can go to a rajah without a pugree. In others the pugree is taken off and tossed at the feet of a rajah.

It is ridiculous in a European (from the Hindoo point of view) to order a native to take off his shoes. This is what we ask our priest to do, so that we may touch the dust of his feet. A munshi when mildly rebuked by his sahib took off his shoes, but recounted the whole scene to his better half, saying, "Sala hamara gor ka gurds lenay magtna!" ("The brother-in-law wants the dust of my feet.")—Indian Military Gazette.

Endurance of Migrating Birds.

The vigor and endurance that birds display upon the wing are astonishing. Nearly all the migratory species of Europe must cross the Mediterranean without resting. The little bluebird pays an annual visit to the Bermudas, 900 miles from the continent, and Wilson estimated its very moderate flight at more than a mile a minute. Remarkable stories are told of the long flights of tame falcons, one going 1,300 miles in a single day. Jawel mentions carrier pigeons that flew from Rouen to Ghent, 150 miles, in an hour and a half, and a certain warbler must wing its way from Egypt to the Baltic, 1,200 miles, in one night.

Alice Roosevelt's Wedding

Have used it for years. It does the work." Sold by W. M. Johnson.

THE STAGE KISS.

What It Really Means Rather Than What It Seems to Be.

Stage kisses! No one but an actor or an actress can fully appreciate what they mean. The picture as presented to the audience is very pretty, but the vision which looms up before the eyes of the poor player is something like this:

A face covered with a coating of cold cream, which has been powdered over with a thick layer of pearl white or brunette powder, as the case may be. On the cheeks are daubs of rouge, which at that close range in no possible manner suggest, as they do to the audience, the rosy cheeks of a country lassie. Over the eyes is rubbed a little dark blue powder to make them poetical. The underlids are heavily penciled, and a mark extends a quarter of an inch from the eye at the end. This makes them larger. Upon each separate lash is a bead of black cosmetic, which has the effect of making them heavy and long. The cherry lips, which to the audience the hero is eager to press to his own, are to his distorted vision at such close range only a gash of carmine painted into a Cupid's bow.

The actress sees before her a picture even less attractive, for ten chances to one the hero, in addition to his grease paint, wears a false mustache and is also "smelly" with tobacco. The glare of the footlights tones down this conglomeration of paint, and at a distance the faces are actually pretty, but upon close inspection they resemble nothing more than a very bad oil painting out of focus.

Taken from this viewpoint, some of the very impassioned kisses featured in plays require no little self sacrifice on the part of the players.—Harriet Quimby in Leslie's Weekly.

Listen

And remember the next time you suffer from pain—caused by damp weather—when your head nearly bursts from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from rheumatism and neuralgia. I am pleased to say that now I am free from these complaints. I am sure I owe this to your liniment." Sold by W. M. Johnson.

Too Much For Him.

"Andrew," said a devoted wife to her husband, "I want $100."

"A hundred what?" exclaimed the husband.

"Dollars," she replied calmly.

"What for?"

"Oh, a whole lot of things."

"Um—um," he hesitated. "I guess I shall have to check your extravagance, my dear."

"Do," she smiled, "and make it payable to my order, please."

He collapsed then and there.

"SNOW-BALL"

Ice Cream Freezers

The "SNOW-BALL" is the only Three-motion Freezer that has a Virginia White Cedar tub, bound with Electric-Welded Wire Hoops which are sunk in grooves and cannot fall off.

The mechanism of the "SNOW-BALL" is simplicity itself.

Our freezer has three motions, and with the inner beater constantly beating the cream from centre to sides, and the two wood scrapers cutting the cream from the sides back to the centre, the result is that you produce a very smooth, velvety cream, and in the quickest space of time.

A useful receipt book packed in each freezer.

Prices of the "SNOW-BALL."

Mr. Atkinson is endeavoring to push the Tampa and Jacksonville, which was formerly the Gainesville and Gulf railroad, promptly south from Fairfield towards Tampa, and those most interested hope he will be successful in doing so. It will be a fine road if it is ever completed, which Mr. Atkinson declares is a certainty.

Among the prominent Palatkans visiting this city yesterday were Judge E. E. Haskell and W. G. Tilghman, the former being on business with the United States land office, the latter en route to Lukins, where he is heavily interested in the Lukins Gulf Cypress Company. As is customary with Palatkans, both were very enthusiastic in the praise of their city, which they declared in a good-natured way was "next to Gainesville" in importance of the smaller cities of the State After viewing the wide, magnificent streets and fine business houses and homes, they felt compelled to give Gainesville the preference on a general average.

CONSUMPTION

Mainly Caused by Chronic Colds and Hanging on Coughs.

A prominent New England scientist has given a good deal of time to the study of consumption, and finds that comparatively few cases are hereditary.

Mostly all are caused by neglected coughs and colds, which gradually weaken the whole pulmonary system, and before people realize it there is a diseased spot in one lung; spitting blood soon follows and eventually a collapse.

Such an unnecessary end, such a pity, for all could have been so different. We know of many instances where our valuable cod liver preparation, Vinol, has been most beneficial in such cases.

Vinol is able to cure hanging-on colds, stubborn coughs, strengthen the lungs, and thus prevent the development of consumption, because it is the most perfect cod liver preparation ever compounded; it contains no oil or grease to upset the delicate stomach, yet it does contain every one of the fifty odd medicinal curative elements actually taken from fresh cods' livers, with tonic iron added. We ask all Gainesville people to try Vinol for weak lungs, chronic coughs, hanging-on colds, or run-down and debilitated conditions, and will pay for the medicine ourselves if it fails to benefit.

How can we express our faith in Vinol more emphatically?—W. M. Johnson, Druggist.

NOTE.—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

J. E. Futch, the merchant of Alachua, after a brief visit to his family here, has returned to that point.

Robt. Hotchkiss, for many years a resident of the Kanapaha section, where he owns considerable land, but now residing in Boston, is here. He is looking after his timber and naval stores interests in the Kanapaha section.

Engineer J. H. Ingram of the Seaboard Air Line, who makes his headquarters at Waldo, was in the city yesterday. Mr. Ingram was injured in a recent wreck near Jacksonville, but is now recovering and hopes to be enabled to resume his duties in a few days.

A. S. Douglass of Winnsboro, S. C., who has been here for the past few days as a guest of his son, J. B. Douglass, has returned to his home. He is well pleased with the city, which he declares to be one of the most modern he has ever visited of the comparative population.

For Sale—One lot on corner of W. Main and Boundary Sts., 100x122½ feet. Cheap at $1,000; will sell for $500. Fifteen acres near University, will make 60 lots 100x100 feet, worth $5,000, will take $2,000 in order to let the other fellow make something. For further information apply at Sun office.

A. D. Jernigan, who has been here for the past few months assisting his father, L. A. Jernigan, the jeweler, has gone to Hampton Springs, where he is spending a few days recuperating. From Hampton Springs Mr. Jernigan will go to Macon and Sandersville, Ga., where he will visit relatives. From these points he will proceed to Jamestown, Va., where he will spend a season at the great Jamestown exposition.

Sheriff L. W. Fennell has returned from Valdosta, Ga., where he was called a few days ago on account of the serious illness of his sister-in-law, Mrs. Dr. Z. M. Price of Micanopy, the sad death of whom occured Saturday. Mrs. Price was at the Sanitarium of Dr. Holmes, a personal friend of Sheriff Fennell, and everything possible was naturally done to revive her. It was a serious case, however, and the combined efforts of a number of the best physicians and surgeons of the country had no effect.
